*) Heartwood

Kebony is beautiful wood recommended by leading architects. It is sustainable, durable and requires no maintenance beyond normal cleaning. Kebony's performance has been proven in a variety of applications including decking and cladding.

REAL WOOD

Real wood with enhanced cell structure

LOW MAINTENANCE

No additional treatment needed beyond normal cleaning

MAXIMUM HARDNESS

Hardness levels increased to levels of the best hardwoods

OUTSTANDING STABILITY
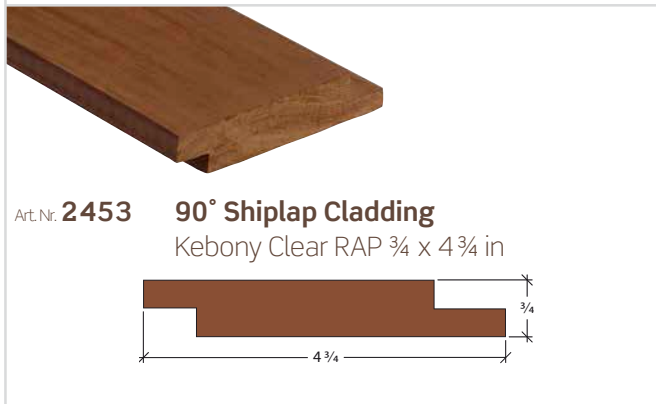

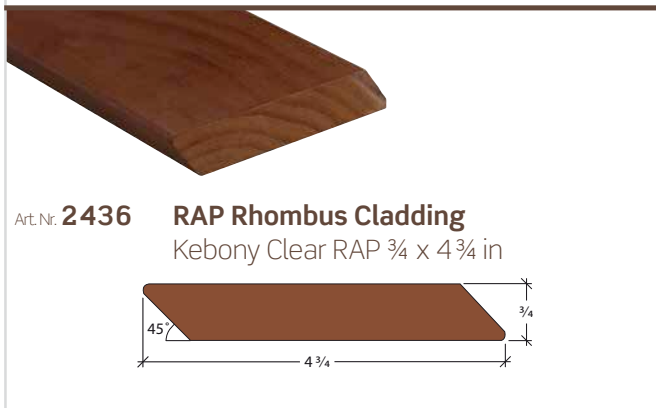

Swelling and shrinkage reduced by 40 – 60%

**GUARANTEED LONG LIFE**
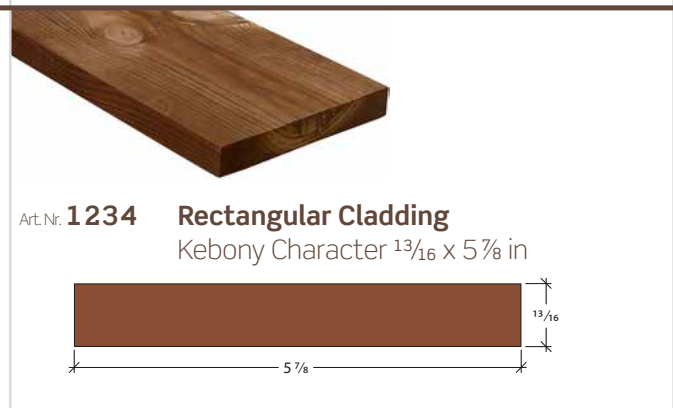

Outdoor life time warranty of 30 years against rot

US patented

The Kebony® technology gives a deep rich brown color. After exposure to sun and rain the wood develops a natural silver-gray patina. Original color can be maintained using UV protection oils.

Kebony is a natural wood product for outdoor applications and its appearance will therefore be influenced by local environmental conditions over time.

Color changes and checking, or small surface cracks, will occur due to natural weathering. The manufacturer cannot be held liable for any of such variations in color and surface appearance as this will not influence durability and overall performance of the product.

All products are FSC®-certified.
