

A sealed product can offer several benefits for the overall performance of the wood and is recommended in most cases. **HD Clear** is a clear finish that protects the surface of the wood, repels moisture, and helps it weather more evenly with exposure. **HD Clear is NOT intended to act as a UV inhibitor and will still naturally silver out like all woods.**

KEY FEATURES

- Waterborne sealer that aggressively repels water and reduces moisture absorption up to 74%, increasing the overall dimensional stability of exterior wood surfaces
- Offers more protection during handling & installation and reduces stains and blemishes (wear gloves while handling)
- Reduces surface growth of mold and mildew
- Allows wood to weather naturally without blackening
- Adds slip-resistance to decking
- Easy to clean with soap and water to maintain a natural look
- Suitable as an end cut sealer
- Environmentally friendly
- No organic solvents
- VOC compliant
- Penetrates the substrate
- Reduces swelling of wood
- Water repellent
- Breathable
- Odorless
- Clear (Hazy white appearance)
- Ready to use; Ready for application

APPLICATIONS

Exterior cladding, decking, soffits, fencing, timbers & roofing

WEATHERING EXPECTATIONS
