LUNAWOOD ASH
SPECIES GUIDE

GENERAL

KEY FEATURES
Lunawood Ash is a thermally modified White Ash, grown in Appalachia and manufactured in the USA. White Ash, renowned for its superior strength and premium appearance, delivers exceptional resistance to wear, even in the most demanding environmental conditions, making it an excellent choice for decking and other heavy-use applications. The vivid grain patterns of Ash add a touch of natural elegance, creating visually stunning outdoor spaces. Left untreated, it weathers naturally to a soft silver-grey patina.

REGION
Appalachia

WARRANTY
N/A

CERTIFICATIONS
FSC

APPLICATIONS/USES
Decking

PRODUCT SPECIFICATIONS

DURABILITY
Class 1

GRADE
FAS

JANKA HARDNESS
~1698 lbf

FLAME SPREAD
Class C

MOISTURE CONTENT
4-6%

FINISHES
Unfinished

NOMINAL SIZES
5/4 x 6”

PRE-MILLED SIZES
1” x 5-1/2”

LENGTHS
7’-12’ random

WEIGHT
3.2 lb/sf
